Product Name:

N5181a-1eq low power (<-110 dbm)

Special Features:

Enables the generator to generate stable, accurate, low amplitude signals; output power levels down to -144 dbm can be attained, with levels specified to -127 dbm

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T320-j
