**Frequency Range Rating:**

+0.010/+20.000 gigahertz

**Special Features:**

Option 2 mechanical and electronic step attenuators; option 3 ultra low phase noise >2ghz; option 4 10mhz to 20ghz coverage lowest phase noise performance; option 8 power monitor for internal power measurement capability; option 10 user defined modulation waveform software; option 15 high power output; option 28 analog modulation suite adds internal and external am, fm, 0m, pm

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

T320-j
