Circuit Construction Type:

Solid state

Product Name:

Vibration precision reference calibrator

Special Features:

The pr-1 model is intended for applications requiring frequency and waveform selection by a supervisory group or metrology laboratory. For those applications, the enclosure must be removed and a single, known waveform is set with the dip switches for field instrument performance verification.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fiig:

A32200
