**End Application:**

Vxi-mobile aias

**Criticality Code Justification:**

Feat

**Product Name:**

Module assembly, local oscillator

**Special Features:**

This is a modified phase matrix 20309-d6; frequency range is 3.0 to 9.0 ghz; includes auxillary I01 output; I01 freq is 3.0 to 9.0 ghz; I02 freq is 3.25 ghz; I03 freq is 228 mhz (I02 and I03 frequencies are factory set); power output for I01 is 10.0 dbm ; I02 is 1.0 dbm ; I03 is 1.0 dbm ; output impedance is 50 ohms for all I0 outputs, this item has critical form fit and function

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

T228-b
