End Application:

Calibration test equipment

Power Source:

External

Mounting Method:

Slot

Product Name:

Algorithmic controller, calibration

Special Features:

Algorithmic closed loop controller; single vxi module; comprehensive on-board signal conditioning; c-size, 1 slot; digital and analog input/output both static and dynamic modes; pwm and fm signals

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A31700
