End Application:

Gear assembly speed decr, engine mdl laf244

Product Name:

Fast response immersion rtd's; rtd probe, temperature

Special Features:

Probe can be mounted directly in fluid streams for accurate, reliable sensing; time constant is 2 seconds; stainless steel probes for use to 260 degrees c (500 degrees f); pressure rating 1500 psi (103 bar); quick reaction to changing fluid and gas temp; npt (u.S.) or metric threads; temp range -269 to 260 degrees c (-452 to 500deg f)

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A51110
