Overall Length:

20.300 inches

Overall Height:

7.000 inches

Overall Width:

16.800 inches

Frequency Range Rating:

+0.000/+20.000 gigahertz

Product Name:

Analog signal generator

Special Features:

Option 520 frequency range 250 khz to 20 ghz; option unu pulse modulation; option unt am, fm, phase modulation and lf output source; option 1em moves all front panel connectors to the rear panel; option 1e1 with step attenuator

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T320-j
