Frequency Rating:

Between 0.010 gigahertz and 40.000 gigahertz

Special Features:

Lcd display; trl/trm calibration, on-wafer, in-fixture, waveguide and antenna measurements; mixer conversion loss, return loss, isolation and absolute delay; amplifier gain compression, harmonic, imd and pulsed rf

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T263-c
