Overall Length:

0.600 inches

Overall Height:

0.050 inches

Overall Width:

0.320 inches

Individual Section Quantity:

1

Operating Temperature Range:

-54.0/+100.0 degrees celsius

Basic Shape Style:

Rectangular or square

Inclosure Type:

Hermetically sealed

Circuit Construction Type:

Solid state

Frequency Per Channel:

4.0 gigahertz operating channel err-100

Product Name:

Broadband double balanced mixer

Special Features:

4.0 - 20.0 ghz rf/lo frequency range; local oscillator power +10 dbm

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A32200
