Mounting Type:

Rack or bench

Overall Length:

20.300 inches

Overall Height:

7.000 inches

Overall Width:

16.800 inches

Frequency Range Rating:

+0.250/+20000.000 kilohertz

Product Name:

Generator, signal/cw, synthesized

Extra Long Reference Number:

E8257d-520-unt-unw-1e1-1ed-1cm-h5k

Functional Classification:

Bb-1.1

Special Features:

Options: 520 250khz-20ghz; unt am fm phase-modulation lf-output; unw narrow pulse modulation; 1e1 step attenuator; 1ed type (f) output connector; 1cm rackmount flange kit; h5k am modulation polarity

Functional Description:

250khz to 2ghz rackmountable fully synthesized signal generator with high output power and low phase noise

Entry Date:

09-08-06

Reference Data And Literature:

Specification control drawing 3132456

Supplementary Features:

110/120vac 50/60hz or 220/240vac 50/60hz; 48lbs; gpib (ieee-488.2 1987); rs-232, 10baset lan interface

Reference Number Differentiating Characteristics:

Differentiated by vendor item drawing

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T320-j
