End Application:

F-16 aircraft

Special Features:

Clock recovery for enumerated bit rates between 50mb/s and 12.6gb/s and continuously variable reates from 100mb/s to 12.5gb/s; high jitter tolerance, slow slew rate; timebase stability; ultralow residual jitter; pll bandwidth and roll-off shape control; 50 ohm path

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
