End Application:

F-16 aircraft

Special Features:

Up to 70ghz bandwidth; 5ps measured rise time; dual channel; p true diffeential tdr, s parameters and fault isolation; 50 ohm input impedance; 2.92mm female input connector; 11.7ps rise time; porm 1.1v operating voltage; 14 bits full scale vertical digital bits

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
