End Application:

F-16 aircraft

Special Features:

Up to 70ghz bandwidth; 5ps measured rise time; dual channel; true differential tdr, s parameters and fault isolation; 50 ohm input impedance; 1.85mm female precision adapter to 2.92mm included with 50 ohm sma termination; 5.8ps rise time; porm 1.1v operating voltage; 14 full scale digital bits

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
