**Frequency Range Rating:**

+0.009/+6000.000 megahertz

**Maximum Signal Output:**

Greater than +18dbm up to +25dbm in overrange mode

**Functional Classification:**

Bb-1.2

**Special Features:**

Remote control iec/ieee bus, ethernet (tc/ip), usb

**Functional Description:**

Used to provide 9khz to 6ghz integrated frequency, level and lf sweeps; analog modulations with am, fm, phase, and pulse modulations; sine and square waves. Capable of external modulator

**Entry Date:**

09-08-18

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

T320-j
