Frequency Range Rating:

+0.009/+6000.000 megahertz

Maximum Signal Output:

Greater than +18dbm up to +25dbm in overrange mode

Functional Classification:

Bb-1.2

Special Features:

Remote control iec/ieee bus, ethernet (tc/ip), usb

Functional Description:

Used to provide 9khz to 6ghz integrated frequency, level and lf sweeps; analog modulations with am, fm, phase, and pulse modulations; sine and square waves. Capable of external modulator

Entry Date:

09-08-18

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T320-j
