Power Source:

Self-contained and external

Product Name:

Simplifiber pro optical power meter fiber test kit

Optical Fiber Tested Type:

Single-mode and multimode

Optical Pulse Wavelength In Nanometers:

850 and 1300 and 1550

Special Features:

Fiber verification kit. Includes simplifiber pro optical power meter, 850/1300 multimode source, 1310/1550 singlemode source, visi fault vfl, ft500 fiberinspector mini, two findfiner remote id sources, carry case, sc st and lc power meter adapters, nfc-kit-box fiber cleaning kit

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A504n0
