Overall Length:

2.449 inches

Overall Height:

1.694 inches

Overall Width:

1.200 inches

End Application:

4940-01-551-2884; maintenance facility, transportable

Special Features:

Bandwith: dc to greater than 3 ghz; vswr: less than 1.23: 1 up to 3 ghz; rf insertion loss: less than 0.25 db; delay time: 245 ps; input signal voltage: 42v pk-pk 30v rms 60 vdc; temperature, operating: 0 degree celsius to 50 degree celsius, non-operating: minus 40 degree celsius to 75 degree celsius

General Description:

Tpa-bnc is powered directly from dp0700 and dp04000 series oscilloscopes using tekvpi probe interface

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
