Overall Height:

107.0 millimeters

Overall Width:

419.0 millimeters

Frequency Range Rating:

+0.009/+1200.000 kilohertz

Usage Design:

Provide extensive storage facilities for simplifying repetitive tests

Modulator Location:

Any acceptable

Modulated Frequency Rating:

1.0 hertz

Pulse Repetition Frequency Rating:

Between 100.0 kilohertz and 2.5 gigahertz

Product Name:

2023a signal generators

Special Features:

Option 5 - rear panel connectors; option 7 - fast pulse modulator

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T320-j
