Mounting Type:

Rack or bench

Overall Length:

17.710 inches

Overall Height:

5.230 inches

Overall Width:

16.880 inches

Current Type:

Ac

Frequency Rating:

Between 48.0 hertz and 440.0 hertz

Frequency Range Rating:

+2.000/+20.000 gigahertz

Voltage Rating:

Between 85.0 volts and 264.0 volts

Product Name:

Synthesized cw signal generator

Phase:

Single

Functional Classification:

Bb-1.1

Special Features:

Options: 1a rack mount kit with slides, 2a mechanical step attenuator; 13a external pulse modulation

Entry Date:

10-07-12

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fiiig:

T320-j
