Frequency Range Rating:

+9.000/+40.000 gigahertz

End Application:

Gpete

Mounting Method:

Bench

Product Name:

Signal and spectrum analyzer

Special Features:

Displayed ave. Noise level (danl): -136dbm, typ; 40mhz analysis bandwidth; +15 dbm third order intercept (toi); removable hard drive for security; measurement applications for vector signal analysis

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A532p0
