Frequency Range Rating:

+450.000/+7100000.000 kilohertz

Unit Type:

Standard

Meter Accuracy Range In Percent:

-25.0/+25.0

Product Name:

High performance handheld spectrum analyzer

Special Features:

Minus 40 - 0 dbm output lvl; option 0020 is tracking generator option; ethernet/usb data transfer; 8.4 inch display screen; measures occupied bandwidth, channel power, acpr, and c/i; n type female output connector; 1 hz frequency resolution

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A532p0
