Overall Height:

133.00 millimeters

Overall Width:

429.00 millimeters

End Application:

Mg3690b

Special Features:

Frequency range: 0.01 to 20ghz; opt 2a: mechanical and electronic step attenuators; opt 3: ultra low phase noise greater than 2ghz; opt 4: 10mhz to 20ghz coverage lowest phase noise performance; opt 8: power monitor for internal power measurement capability; opt 10: user defined modulation waveform software; opt 15a: high power output; opt 22: 0.1hz to 10mhz audio coverage; opt 28a: analog modulation suite

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T320-j
