Product Name:

Ammeter

Special Features:

Accuracy form .50 percent of reading plus 10 lsd; terminal resistance is 50.0 ohms form 1.0 percent; 2.0 watts ; weighs less than 12oz; highefficiency red led display, .43" digitheight; continuous bit; dc current 50 mv span bipolar

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A310a0
