Wattage Rating:

260.0 watts and 2600.0 watts

Voltage In Volts And Current Type:

2.5 dc

Special Features:

Cc, cr, cv, cp load modes; master/slave paralleling control mode; dynamic loading up to 20 khz; 1v to draw rated current; programmable slow rate up to 41a/us; measures voltage/current power/resistance; led/lcd display; short circuit simulation and current measurement; op, oc, ov and ot reverse full protection; remote controller; surge load capability; battery discharge timer

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
