**Current Type:**

Dc

**Presentation Type:**

Digital display

**Display Digit Quantity:**

5

**Accuracy Rating:**

0.01 percent single indicator single scale

**Special Features:**

Built-in sensor energization; rs232/485 and analog interface; ip65 sealed front panel; peak/valley detection; dual scaling; tare and gross/net functino; analog output; seiral communications; password protection and calibration locking; 17 calibration connection points; porm 20 ma current; external pressure transducer voltage and current input; 24v unregulated output sensor excitation; 4 open collector alarms

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No
