

View Online at <https://aerobasegroup.com/nsn/6625-01-596-5838>

Special Features:

4-module; board locator; auto optimizer; autodebug; automatic circuit analysis; interactive probe/pin locator with guided probe; real time fpy (first pass yield) display at runtime; intelligent yield enhancement tool; push button debug; (1-4) standard modular construction for flexibility/scalability; standard dual-well construction; standard throughput multiplier; built-in standard vacuum solenoids; input power connections; 2, 4 and 6 wire analog unpowered measurement; 750ma backdriving current; overvoltage and capacitor discharge protections; arbitrary waveform generator; short wire, no wire and long wire fixture types

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
