**End Application:**

An/fsq-21 (v) 1

**Furnished Items And Quantity:**

Meter, test leads, soft case, user manual

**Indicator Type:**

Digital display

**Installation Design:**

Hand held

**Accuracy In Percent:**

+0.0/+1.9 at full scale 5th indicator single range

**Power Source:**

Internal or external

**Display Type:**

Liquid crystal

**Display Digit Quantity:**

4

**Measurement Range:**

+10.0/+1000.0 microfarads 5th indicator single range

**Scale Selection Method:**

Switch

**Features Provided:**

Autoranging

**Criticality Code Justification:**

Agav

**Functional Classification:**

Aa1.4

**Functional Description:**

Handheld clamp-on true-rms meter measuring amps, voltage, and resistance

**Entry Date:**

11-10-06

**Style Designator:**

Clamp-on

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A310a0
