Overall Length:

2.200 inches

Overall Diameter:

1.550 inches

Installation Design:

Panel

Scale Marking:

Pie chart divided into 3 sections with each section having numbrs 30, 40 and 50 in one section peach plus a center spot indicator

Product Name:

Desiccator plug

Special Features:

Measures realtive humidity in ranges of 30, 40 and 50 % as well as inidcating condition of desiccant located at the center spot indicator; used on shipping containers; 10 psi maximum internal pressure

Material:

Aluminum

Material Specification:

Qq-a-225/5 or /6 federal specification single material response

Surface Treatment:

Anodize

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A310a0
