Frequency Range Rating:

-100.0/+3000.0 kilohertz

End Application:

Marine nationale francaise

Unit Type:

Plug-in and standard

Frequency Calibration Accuracy Range In Percent:

-50.0/+50.0

Recording Device Type:

Electronic video

Plug-in Unit Quantity:

1

Individual Plug-in Unit Frequency:

60.0 kilohertz

Product Name:

Spectrum master handheld analyser

Special Features:

Analyzer specs are: measurements: occupied bandwidth, channel power, acpr, c/i, special emission mask; interference analyzer: spectrogram, signal strength, rssi, signal id, interference mapping; dynamic range: >85 db in 100 hz rbw

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A532p0
