**Overall Length:**

17.71 inches

**Overall Height:**

5.23 inches

**Overall Width:**

16.88 inches

**Frequency Range Rating:**

+0.0 to 20.0 gigahertz

**Output Impedance Rating:**

50.0 ohms

**Frequency Band Quantity:**

1

**Special Features:**

Weight: 39.68 pounds, phase offset: adjustable in 0.1 degree steps, warm up time is 30 minutes from standby or from cold start: 120 hours to achieve specified frequency stability, power: 85-264 vac, 250 va , storage temperature range is negative 40-75 degrees celcius, operating temperature is 0-50 degrees celcius, altitude: 4600meters

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

T320-j
