Terminal Quantity:

2

Terminal Type:

Any acceptable

Current Type:

Ac

End Application:

Test set

Radio Frequency Rating:

1.0 megahertz

Material And Location:

Aluminum alloy body

Coupling Method:

Transformer

Tuning Type:

Fixed

Product Name:

Coupler, data bus

Special Features:

This is a single terminated 1-stub inline data bus

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T389-c
