Overall Length:

41.0 inches

Overall Height:

29.0 inches

Overall Width:

28.0 inches

End Application:

Tester

Accessory Components And Quantity:

(1)inverter, (1)watt saver motor, (1)diode ripple lamp, (1)diode trio lamp , (1)alternator harness, (1)serpentine v belt combination pulley, (welding cables and clamps, (1)voltmeter, (1)ammeter, (1)digital tachometer, (1)mounting vise, (1)ign"r" lamp, (1)1/4" hold down screw, (4)4 1/2" pivot and jewel analog meters, heavy-duty d.C. Power contactors, insulated transformers, ab circuit switch, hinged belt guard

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23900
