End Application:

Boat, harbor

Indicator Type:

Digital display

Installation Design:

Panel

Measurement Range:

+0.0 to 150.0 amperes single indicator single range

Circuit Attachment Method And Quantity:

1 plug

Product Name:

Ac digital ammeter - 0 to 150a

Special Features:

Input voltage 80-249v; min power consumption 1 watt

Style Designator:

Rectangular semi-flush mtg

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A310a0
