End Application:

High-precision analysis of beam quality and spatial power distribution

Test Type For Which Designed:

For beam diameters from 2.5 to 9 mm

Product Name:

Scanning slit optical beam profiler

Special Features:

Add. Knife edge mode, hi spd usb 2.0 interface to pc

Supplementary Features:

Wavelength range covering 200 to 1700 nm

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A560j0
