Circuit Current For Which Designed:

Ac

Frequency Rating:

40.0 kilohertz

Indicator Type:

Dial w/pointer

Installation Design:

Hand held

Power Source:

Internal

Phase:

Single

Special Features:

Single range switch to help reduce chance of operator error; diode overload protection and 2 fuse arrangement; thermoset plastic case; 25 ranges and functions; two input jacks to help minimize error; resistance measurement of 30v/100m on rx100k range for testing insulation; 3 year warranty

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A310a0
