Frequency Rating:

60.0 hertz

End Application:

5419-01-580-6932

Operating Voltage Rating In Volts:

120.0 ac

Product Name:

Indicator, fault lo

Special Features:

Description: receptacle tester with gfci, 120vac; manufacture model no.: gf16302; indicator: legend; safety rating: cat111 300v; standard: ul; contract control no.: b35406

Style Designator:

Hand-held

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A310a0
