**Width:**

14.00 inches

**Thickness:**

20.50 inches

**Ac Voltage Rating:**

220.0 volts and 240.0 volts 2nd operating power rqmt

**Frequency Rating:**

60.0 hertz 1st operating power rqmt

**Test Type For Which Designed:**

Test analog and digital radios

**Operating Test Capability:**

Audio, range, track radios

**Product Name:**

Analog/digital radio test platform

**Height:**

7.75 inches

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

T228-a
