Width:

14.00 inches

Thickness:

20.50 inches

Ac Voltage Rating:

220.0 volts and 240.0 volts 2nd operating power rqmt

Frequency Rating:

60.0 hertz 1st operating power rqmt

Test Type For Which Designed:

Test analog and digital radios

Operating Test Capability:

Audio, range, track radios

Product Name:

Analog/digital radio test platform

Height:

7.75 inches

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T228-a
