End Application:

Low power high power distance measuring equipment (lphp dme)

Special Features:

Two-way power divider that operates from 800 to 2500 mhz; amplitude balance of 0.2db or less, phase balance of 3 deg. Or better, insertion loss of 0.4db or less, isolation of at least 22 db, and vswr of now more than 1.35: 1; the power divider can handle an rf input power of 30 w, has sma female connectors, and measures 3.1x1.6x0.5 in

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
