Carrying Case:

Provided

Accessory Components And Quantity:

Instruction manual 1

Usage Design:

Interfacial tension

Scale Range:

+0.0 to 90.0 dynes

Scale Smallest Increment:

0.1 dynes

Vernier Minimum Reading:

0.1 dynes

Torsion Wire Material:

Steel

Ring Material:

Platinum-iridium

Ring Circumference:

6.000 centimeters

Scale Reading Type:

Direct

Special Features:

Also designed to measure surface tension

Precious Material:

Iridium and platinum

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T394-k
