Carrying Case:

Provided

Usage Design:

Interfacial tension

Scale Range:

+0.0/+90.0 dynes

Scale Smallest Increment:

1.0 dynes

Torsion Wire Material:

Steel, corrosion resisting

Ring Material:

Platinum-iridium

Ring Circumference:

6.000 centimeters

Scale Reading Type:

Direct

Special Features:

Also designed to measure surface tension

Precious Material:

Iridium and platinum

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T394-k
