NSN 6630-00-489-3912

Electrolytic Solution Analyzer - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/6630-00-489-3912 Height: 8.500 inches **Current Type:** Ac Frequency Rating: Between 50.0 hertz and 60.0 hertz **Accessory Components And Quantity:** Sensor 1 Depth: 21.000 inches Voltage In Volts: 115.0 and 230.0 **Special Features:** High concentration particle counter mainframe and sensor; used for automatic counting and sizing of particles in highly concentrated samples at a low sample flow rate; maximum particle concentration 100, 000, 000 particles per cubic foot; selectable sample flow rate 0.1 or 0.01 cubic feet per minute Width: 16.750 inches Shelf Life: N/a **Unit Of Measure:**

Demilitarization:

No

Fiig:

A503u0
