General Description:

Single meter displays salinity, temperature, conductivity, conductivity range 0-50000 umhos/cm form 3 percent accuracy, temperature range -2 to 50 degrees c porm 0.37 degrees c accuracy, manual temerature compensation to conductivity permits direct reading of salinity, range 0-40 parts/thousand, power requirement two d cells

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
