Body Diameter:

10.0 millimeters

Body Length:

140.0 millimeters

Electrical Lead Length:

30.000 inches

Features Provided:

Integral preconditioning solution vial and shielded

Body Material:

Glass

Instrument Type For Which Designed:

No instrument designation

Industry Designated Name:

General purpose combination

Ph Measurement Range:

+0.00/+14.00

Operating Temperature Range:

5.0 degrees celsius minus and 80.0 degrees celsius plus

Err Default:

Err default

Internal Reference Element Type:

Silver/silver chloride

Err Default:

Err default

Err Default:

Err default

Special Features:

For use in routine ph and titration measurements in aqueous and nonaqueous samples

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A506n0
