General Description:

Titration sample volumes from 0.5 to 5 ml, 3-speed stirring, sealed titration vessel, plastic-covered magnetic disk stirrer, swing-away magnet housing, brushless stirring motor with 3-step pulley, comes with 3 vessels, 10 magnetic stirrers, 2 delivery tubes, 1 calomel electrode, 1 glass electrode, 1 bottle buffer solution ph equals 6.5, 1 bottle saturated kci solution

Reference Number Differentiating Characteristics:

Differentiated by voltage

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
