Overall Length:

10.000 inches

Overall Width:

6.000 inches

Overall Thickness:

6.000 inches

Carrying Case:

Provided

Housing Material:

Plastic

Accessory Components And Quantity:

600-reagent tablets 1 tablet per test, 6-10 ml 120x13.8 mm test tubes, 6-plastic stoppers

Holder Type For Which Designed:

Slide

Color Range:

+6.8/+8.2 ph and +0.1/+1.0 ppm residual chlorine and +1.0/+6.0 ppm residual chlorine

Color Graduation:

0.2 and 0.1 and 0.5

Light Type For Which Designed:

Daylight

Indicator Solution Type:

Phenol red and diethyl-p-phenylamine diamine

Viewing System Type:

Direct

Integral Light:

Not provided

Product Name:

Comparator color: hydrogen ion and residual chlorine

Supplementary Features:

Daylight illumination; for determination of chlorine residual in swimming pools and communal water supplies

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T149-b
