Product Name:

Analyzer bld gas 500watts complete w/supplies necessary f/oper

Exterior Container Weight:

56.00 pounds

Exterior Container Cubic Measure:

8.771 cubic feet

Special Features:

C/O a self-contained electronic blood ph/gas analyzer system measuring ph, pcO2, pO2 and computing plasma bicarbonate, base excess, oxygen saturation, oxygen content and total carbon dioxide content, automatic single point calibration every 30 min and two point calibration every two hours, two sample sizes 130 and 500 microliters, ph range 6.5o to 8; manometric measuring

Unit Of Issue Cube:

58.000 cubic feet

Supplementary Features:

500W-AT-TS,-COMP

Unit Of Issue Weight:

460.00 pounds

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A503u0
