Extra Long Reference Number:

114400-4400/114400-1400/114400-3102ff/114400-2206/114400-5205

General Description:

Floor mtd oven, 1100 cu. In. Capacity for operation with 4 u-shaped columns; temp control of 4 inlets and 4 outlets, pyrometer with 7 position selfctor switch, 2 panel mounts for detector gas metering modules, 4 carrier gas flow controllers and 9 in. Rotameters, motor driven vent, removable doors, carrier gas filter drier kit, 2 test columns 6 ft. By 0.25 in., instruction manual, 110 vac, 50/60 hz; isothermal temp controller, ambient to 400 degrees c, porm 0.1 degrees c; dual flame ionization detector, max. Carrier flow 200 cc/min, max. Solvent volume 50 microliters, heater with controller, thermocouple, igniter, installation kit, 2 filter driers; dual solid state electrometer; dual flame and electron capture detector gas metering module

Reference Number Differentiating Characteristics:

As differentiated by detector, electrometer, and detector gas metering module

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23900
