Extra Long Reference Number:

5831a/p03/option010/18812a/18810a/18824a/option801

General Description:

Dual flame ionization; dual channel flow sensor, thermal paper printer/plotter, 108/126 vac, 58/62 hz; 125 v power cable; liquid nitrogen coolant cryogenic oven; dual flame ionization detector kit; cryogenic oven kit for operation to m50 deg, liquid nitrogen coolant; auto sampler for use only under keyboard control; air sampler for 115 vac operation

Reference Number Differentiating Characteristics:

As differentiated by cryogenic oven kit, auto sampler, and air sampler

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23900
