**Extra Long Reference Number:**

5831a/p03/option010/18812a/18810a/18824a/option801

**General Description:**

Dual flame ionization; dual channel flow sensor, thermal paper printer/plotter, 108/126 vac, 58/62 hz; 125 v power cable; liquid nitrogen coolant cryogenic oven; dual flame ionization detector kit; cryogenic oven kit for operation to m50 deg, liquid nitrogen coolant; auto sampler for use only under keyboard control; air sampler for 115 vac operation

**Reference Number Differentiating Characteristics:**

As differentiated by cryogenic oven kit, auto sampler, and air sampler

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A23900
